PROFESSIONAL EXPERIENCE

SEO & GEO Specialist | Axencis Inc. (Delaware, USA – B2B IP Protection) | Jan23 – Jan26

- **Led end-to-end SEO and Generative Engine Optimization** for a U.S.-based B2B firm serving enterprise clients **(Tesla, Honda, CreeLED)**. Achieved measurable increases in organic visibility, traffic, qualified leads, and AI citations within a short time frame.
- **Generative Engine Optimization (GEO) & SEO:**Engineered site architecture and entity-rich, structured data (JSON-LD) payloads specifically optimized for LLM-driven answer engines, driving verifiable increases in AI citations and brand mentions. Built entity-rich, citation-ready pages using Q&A structures, concise factual blocks, and structured data.
- **Technical SEO & Python Automation:** Maintained flawless crawl-ability, indexing, and bot access control. Deployed custom Python scraping and AI-driven automation workflows to scale content generation and aggressively reverse-engineer competitor semantic clusters, significantly reducing CAC. Designed intent-based clustering, and competitor reverse-engineering strategies.
- **Reduced costs and increased efficiency using Open-source tools**, building my own tool & Scripts, custom scraping, and AI automation. Maintained full technical SEO health, including crawl-ability, indexing, canonical, internal linking, schema, and bot access control. **All performance improvements are documented and verifiable.**

Full-Stack B2B Marketing Manager | Axencis Inc. (USA) | Jan 24 – Dec26 Reporting to CEO

- **Owned and executed annual B2B marketing** road-maps aligned to revenue targets, consistently exceeding defined KPIs across pipeline, CAC, and lead quality metrics.
- **Full-Funnel Demand Generation:** Designed and executed annual marketing road maps aligning SEO, paid media, and sales outreach. Consistently exceeded pipeline KPIs by integrating Google and LinkedIn Ads with long-term organic acquisition engines.
- **Account-Based Marketing (ABM) Architecture**: Pioneered a multi-threaded **'Group Buyer'** strategy. Orchestrated account-level conversions by synchronizing highly targeted LinkedIn Ads, intent-based SEO content, and automated CRM sequences (HubSpot, Pipedrive) to engage multiple decision-makers simultaneously.
- **Introduced AI automation and web-scraping** workflows to significantly reduce CAC and accelerate top-of-funnel lead generation at scale. **Designed and automated high-converting personalized email Campaigns** optimized across each stage of the B2B buying funnel.
- **Led data-driven performance marketing** across LinkedIn Ads and Google Ads, with SEO as the long-term organic acquisition channel all tracked against pipeline contribution.
